Ginkgo Forte

Description

Ginkgo Forte contains flavonoids, terpene lactones (including ginkgolides and bilobalide) and other phytochemicals. product is standardized to contain 14.4 mg of ginkgo flavonglycosides (ginkgo flavone glycosides) and 3.6 mg of ginkgolides and bilobalide per tablet to ensure optimal strength and quality. The compounds in Ginkgo Forte work together to:

- support memory and cognition
- promote alertness and mental clarity
- help support healthy mental function
- support good health in older adults
- promote healthy circulation to the brain and peripheral areas of the body which is important for the delivery

of oxygen and vital nutrients

- support a healthy cardiovascular system
- support and encourage healthy blood
- provide antioxidant support to help protect nerve cells and other tissues
- support normal hearing
- support eye health
- beneficially modulate cortisol during periods of stress
- reduce the congestive symptoms of premenstrual syndrome Δ

Supplement Facts

Amount Per Serving: 1 capsule Servings Per Bottle: 186
Amount Per Serving: Proprietary EnzymEnergized™ Enzyme Blend 250mg

- Nattokinase (NSK-SD™)
- Catalase

Proprietary "EnzymEnergized™" Mineral blend 10mg / This product is NON-GMO, NON DAIRY, NON SOY, NO Gluten

Other ingredients: rice extract, capsule (vegetable cellulose, water)

Contains Contains 1,100 FU (Fibrin Units) NSK-SD™ per capsule.

This product is FREE of any fillers, dairy, wheat, corn, soy, artificial colors, flavors or preservatives.

L-Citrulline

Description

Citrulline is found in high concentration in the liver and is not a component of any major proteins or enzymes, and therefore not much information is available. The amino acid Citrulline is required to detoxify the liver from ammonia, which is a waste product of the body from oxidation. Citrulline promotes energy and stimulates the immune system. This unusual amino acid is formed in the urea cycle by the addition of carbon dioxide and ammonia to L-Ornithine. It is then combined with Aspartic Acid to form Arginosuccinic Acid, which is later metabolized into the amino acid L-Arginine.

Jo Mar sells 100% pure, U.S.P. grade L-Citrulline in powder form. The powder is water soluble and weighs about 3.4 grams per level measuring teaspoon.

The information stated here is not complete and should not be considered a recommendation. Please consult a qualified physician or nutritionist before beginning amino acid supplementation.
